### President 's Message

Dear Colleagues,

The Department of Periodontology of the Dental Faculty of Aristotle University has the pleasure to announce the International Congress of Periodontology titled "Periodontology 2021 Evidenced based interventions, New perspectives" which will take place in Thessaloniki, 19-20 of February 2021, at the Hotel Electra Palace.

The Organizing Committee has invited well known researchers and clinicians from Europe and the USA who will share with you their 'state of the art' knowledge in the fields of Periodontology and Implant Dentistry.

We believe, that offering of high-quality scientific events by experts with international recognition is very important for the Dental Community. Nevertheless, it is quite a long time, since the colleagues in northern Greece had the opportunity to attend a meeting hosting distinguished speakers in the field of Periodontology. Furthermore, small group hands-on workshops on cutting edge clinical topics will be offered by master clinicians recognized trainers.

The city of Thessaloniki, also called "the Nymph of Thermaikos Gulf", offers many possibilities and is an attractive destination especially in May when there are ideal weather conditions. The city is renowned for its festivals, events, good food and vibrant cultural life in general and is considered to be Greece's cultural capital.

On behalf of the Organizing Committee, I am delighted to invite you all to this special event and I encourage you to make the arrangements for your participation also taking advantage of the special early bird registration offer. We can assure you that we will do our best to fulfill your expectations and hope that you will spend a constructive and pleasant weekend in Thessaloniki.

Dr. Ioannis Vouros

Professor, Aristotle University of Thessaloniki

President of the Organizing Committee
