# PROGRAM

---

**2025 THESSALONIKI VITREO-RETINAL SUMMER SCHOOL  
(TVRS) IS DEDICATED TO THE MEMORY OF PROFESSOR  
LEONIDAS ZOGRAFOS**

---

All of us in Thessaloniki Vitreo-Retinal Summer School and Mediteretina Society Club, suffered a great loss. **LEONIDAS ZOGRAFOS**, a co-founder, an incredible professor, our teacher and our best friend is no longer with us. We will surely miss him, yet his memory will continue to inspire us.

## A TVRS MESSAGE BY A. NIKOLAKOPOULOS TVRS DIRECTOR

Dear colleagues and friends,  
We have the honor to invite you to the 14th THESSALONIKI VITREORETINAL SUMMER SCHOOL (TVRS), which this year, is going to be held between 30<sup>th</sup> of June and 5<sup>th</sup> of July 2025 in Thessaloniki. The 6-day summer campus, consists of wet labs and Lectures, given by 54 International Masters in Retina Surgery and Medical Retina, as well as Dry simulators Labs.

This year we would have also Gonioscopy attached to BIOM and treating glaucoma complications in VR surgery. Our aim is to bring together healthcare professionals and find out how to improve our practices.

Our ambition is to inspire colleagues who wish to start a program, need support, and further hands on training.

This year we have 54 invited international expert Faculty from 19 countries to teach 40 ophthalmology participants from 10 countries from all over the world to join us in Thessaloniki.

And happy to welcome foreign colleagues from Switzerland, Italy, Russia, Serbia, Brazil, Egypt, USA, Canada, Turkey, France, Japan, India, Germany, Argentina, Bulgaria, South Africa, Romania, Czech Republic, Israel, Morocco, Philippines, Poland, Bosnia, Sweden, Estonia, Hungary, The Netherlands, Saudi Arabia, Jordan, Nepal and Greece.

The last few years we have introduced for training the famous BIONIKO Artificial Eyes from Miami for ILM Removal Techniques, cataract complications, macula surgery, subretina injections, Retinal surgery current systems and many more using some latest technology Microscopes and almost all-important current Vitrectomy systems to set up of having in one station Artificial Bionico Eyes, the latest microscope and wide-angle lens systems for True To Life Surgery (TLS) in TVRS.

We are happy to announce the FIRST Presentation of the latest Haag Streit 3D METIS microscope. Using The Latest EIBOS 2 viewing system.

Also the FIRST presentation of the ZEISS ACTIVO 850 3D OCT.

In addition, we are pleased to announce that this year we will have the latest version of the BD NGENUITY platform in all our constellation systems.

DRV 3D Systems

And of course the correct use of BIOM Gonio Lenses for Glaucoma surgery by OCULUS.

All these systems are presented from our Faculty teachers to project on a wide movie screen the surgical steps using the Wi-Fi-capabilities of these new microscope. And 3D systems with their capabilities.

AND ALL THESE FIRST TIME IN A TRUE TO LIFE WET LAB.

Just a small update to a very important issue is the section of teaching cataract surgeons to treat cataract complication using Vitrectomy and fixing Iris problem, IOL dislocation, dropped lens fragments and the art of placing endoscleral and Iris Supported IOL. And of course the Carlevale training by CARLEVALE.

We are planning to have at least 40 (fourty) hours of wet labs for each participant.

Upon completion of the school, participants that will select to attend, will receive an intensive training. One of TVRS main issues is to introduce latest technology and an update of 3D surgery. Very important is to learn tricks & tips when facing difficult situations that cannot be found on the internet. Looking forward to enjoy continuing interaction in a campus like society, being together from breakfast to lunch, from lunch to dinner & between the whole day all together, faculty & participants.

One of our happiest results is the interaction for the last 14 years between our 500 participants and enjoy of having 9 old participants becoming TVRS Faculty teachers.

AND BECOMING A LITTLE PERSONAL

LOOKING AT THE PAST OF TVRS I CAN SEE THE FUTURE.

It's a great feeling to see in these 14 YEARS, Participants to become International Masters AND NOW INVITED FACULTY TEACHERS from all around the world.

BUT MORE THAN THAT, COMING BACK AT TVRS AS TEACHERS AND ORGANIZERS READY TO TAKE OVER using the TVRS DNA.

Looking forward,

**Athanasios Nikolakopoulos**

TVRS Director

# THESSALONIKI VITREO-RETINAL SUMMER SCHOOL

**Monday, June 30, 2025**

Day 1

- 16:00 - 16:30 Vitreomacular interface disorders: principles of surgery - Ultrawide field imaging (UWF): "the big picture" in vitreoretinal service  
**A. A. Ellabban (UK)**
- 16:30 - 16:45 The importance of wide field photography in decision making in vitreoretinal surgery  
**Shaarawy (Egypt)**
- 16:45 - 17:10 New imaging modalities in retina  
**H. Or (Germany)**
- 17:10 - 17:30 Help! My VR patient has glaucoma!  
**M. Willemse (South Africa)**
- 17:30 - 17:45 Natural history of Stargardt disease, the longest follow up cohort study  
**M. Jarc-Vidmar (Slovenia)**
- 17:45 - 18:15 Robotic-Assisted VR Surgical Systems  
**H. Or (Germany)**
- 18:15 - 18:30 Hemorrhage – When to Operate  
**E. Papavasileiou (Greece)**
- 18:30 - 19:00 What does it mean Digital Surgery? How it has changed my surgical life  
**V. Ferrara (Italy)**
- 19:00 - 19:15 Beyond the Retina: A mentor's Guide to Early Career Success to Young VR surgeons  
**S. Natarajan (India)**
- 19.30 **COCKTAIL RECEPTION**
